

CLEAN VERSION OF AMENDMENTS

IN THE CLAIMS

Please add claims 18-22, as follows:

1 --18. The electron gun of claim 1, the first hole portion having one shape selected from
2 among circular, vertically elongated, and square.

1 --19. The electron gun of claim 13, the first hole portion having one shape selected from
2 among circular, vertically elongated, and square.

1 --20. An apparatus emitting electron beams, the apparatus comprising:
2 at least two cathodes emitting electron beams, said at least two cathodes being arranged
A 3 substantially in a horizontal line; and
4 a control electrode having first hole regions, each one of the first hole regions including a
5 first vertically elongated indented portion formed at an output side surface of said control electrode
6 and including a first hole portion formed in the first indented portion, at least one of the electron
7 beams passing through said control electrode.

1 --21. The apparatus of claim 20, the first hole portion having one shape selected from
2 among circular, vertically elongated, and square.

1 --22. The apparatus of claim 20, further comprising:

2 a screen electrode being installed adjacent to said control electrode, said screen electrode
3 having second hole regions, each one of the second hole regions including a second indented
4 portion formed at an output side surface of said screen electrode and a second hole portion formed
5 in the second indented portion, at least one of the electron beams passing through the second hole
6 portion.--
